

To The United Nations

Dear Sirs/ Madams,

The signatories of this petition ask the United Nations to investigate the officially confirmed violations against human rights regarding the detained protesters of the Iranian Presidential Elections 2009.

The presidential candidate Mehdi Karoubi, in addition to the UN correspondent Manfred Nowak, accuses the Iranian government of torture, rape and abuse in at least 300 cases. International news agencies reported a minimum of 3 confirmed deaths under these circumstances.

Respectfully,
